	Traffic Red	200.000.000	#c80000
	White	246.251.248	#f6fbf8

Colour Sample Disclaimer

Due to the many variations in monitors and browsers, color samples can and will vary to some degree in appearance on different monitors. Computer monitors are not all calibrated equally and color reproduction on the Internet is not precise. Since it is not possible to guarantee my online colors will look the same on all computers, I do not guarantee that what you see accurately portrays the color of the actual railroad company. I have done my very best to make sure these samples are as close to the original as possible, but I cannot guarantee that what you see is an exact sample.

Please note :
The RGB Index codes I have used to produce these samples originally came from the now defunct Phil Campbell website “World of Trainz”. That said Phil never provided the Hex Codes as I have, so once again, while I have done my very best to make sure these codes are as accurate as possible, I cannot guarantee that they are 100% error free.
